Hi, I'm Arjun Tripathi I have just over a month of experience as a FullStack Developer.
In my short time there, I've already contributed to a dozen projects. I completed one internship with a backend developer, where I created APIs for Netcore teams. Ideally, I would like to continue to specialize in Full Stack Development, because I am interested to work in this sector.

EXPERIENCE

Software Engineer Intern   July 2022 - October 2022

Rhizicube

This is my first internship experience in backend Development. Here I created APIs for NETCORE teams for their Zapier integration I also understand How to test APIs with **POSTMAN** and **Thunder Client** in **VS code** and with **CURL** also. There I used **GO** Language, **JS, rest API**, and **gRPC** to develop an API in Production.

College Project Head   May 2022 - July 2022

Mahatma Gandhi Kashi Vidhyapeeth

We create a chatting website for our major project, and I lead the whole team, but mainly worked on the backend on that project.
We use **PHP, JS, JQuery, CSS, HTML,** and **MySQL** in the development of our chatting website and I also use a scale drone to add the facility of video call in our website.
